FINANCE DEPARTMENT ON SHORE

All departments related to Finance and Administration, are below shore. A job in the Finance and Administration department on a cruise ship is very similar to a job you'd find in a five-star hotel or resort. The Finance Manager oversees all staff and crew in this department. In general, the Department does the following work on shore:

Cruise Job Descriptions

ANALYST, FINANCIAL

Job Description

We are seeking a Financial Analyst. The Financial Analyst is a key contributor to the success of Carnival Cruise Line and helps operational leaders make critical business decisions through their technical and analytical expertise. This role is responsible for reporting and analyzing financial variances of ongoing operations, building forecast and budgets, in addition to developing, tracking, and analyzing recommendations for General and Administrative expenses ("G&A") Compensation & Benefits, including managing global headcount allocations. This individual has a strong ability to problem solve under ambiguity, adapts readily and easily to changes, and has the drive to challenge the limits of their professional skills.

ESSENTIAL FUNCTIONS

- Be a project lead in providing complex financial analysis and communicating gathered insights to all levels of management in a simple and understandable approach, often in informative, well-organized executive-level PowerPoint presentations
- Be the key financial support for various operational groups in the planning, forecasting, and variance explanation of ongoing operations as well as new initiatives in a timely manner
- Develop and improve upon analytical tools, independently and collaboratively, to offer insights into business trends and identify opportunities
- Extract and assimilate data, as well as coordinate flow of information to complete projects and ad hoc requests
- Constantly self-improve and promote an environment of teamwork and high professional standards

QUALIFICATIONS

- Bachelor's Degree
- Bachelor's degree in related discipline with 3.5 GPA or higher
- 2-3 years
- Advanced proficiency in Microsoft Excel and PowerPoint. Advanced proficiency in Hyperion Essbase, Hyperion Planning, Hyperion Interactive Reporting, and Oracle Financials or similar database systems. Proficiency in Tableau.
- Excellent interpersonal and communication skills. Ability to adapt easily to change in dynamic environment.
- Minimum Bachelor's Degree

Cruise Job Descriptions

- Mastery with financial statement analysis. Must be able to critically think, problem solve, and perform root cause analysis under ambiguity. Highly analytical and detail oriented with a strong business sense. Ability to manage multiple projects to completion, coordinate action plans, and implement actionable strategies. Be able to manage tight deadlines, prioritize work-load, and achieve effective results.
